REQUEST FOR REMARK – MULTIVARIATE CALCULUS

I write to formally request a remark of my assessment in the course Multivariate Calculus (MATH2401) for last semester.

After reviewing my results, I believe there may have been an oversight in the marking or grading of my paper. I would therefore like to request the remark in accordance with the university's examination policies.

Kindly let me know the procedure to follow, including any forms, deadlines, or fees required for this process. I am committed to follow all the necessary steps and deadlines.

Thank you very much for your time and consideration.

Sincerely,

Cassim Ibrahim (**BICT0722**)
